

During the September Parish Council meeting your council made the decision to continue our policy of limiting the number of people in church to 30% of the seating capacity which translates to approximately 30 people plus those that are needed to serve the liturgy. It was also decided to continue requiring all people to wear masks while inside the Cathedral. All attendees must continue to contact Stan Hawryliw to preregister for attendance at the service.

What was added to our policies is that now all attendees will be required to show proof of vaccination or a COVID test showing a negative result in the past 72 hours.

We are committed to maintaining a safe environment in which to pray and attend. We also are committed to ensuring that the health and safety of Father Taras and those that participate in the services are assured of a safe as possible environment. While we do not wish to or want to turn anyone away we want to make sure that all are placed in an environment that is as safe as possible.

Please do your part and respect this decision.

This policy will be reviewed on a continuous basis and will be adjusted as events require.

Thank you.

Rodney Antonichuk  
Parish Council President.
